## PROFILE SUMMARY

---

Highly motivated and passionate Artificial Intelligence student seeking opportunities to contribute to cutting-edge projects and leverage my skills to solve real-world problems.

## Education

---

<b>SRKR Engineering College</b> <i>Artificial Intelligence and Data Science</i>	<b>May 2025</b> <i>Current GPA: 8.0</i>
<b>Sir C R Reddy Polytechnic</b> <i>Computer Science Diploma</i>	<b>April 2022</b> <i>GPA: 8.2</i>
<b>Sri Chaitanya School</b> <i>Secoundary School Certificate</i>	<b>March 2019</b> <i>GPA: 9.5</i>

## Technical Skills

---

**Languages:** C, Python, Java, JavaScript  
**Backend:** Node.js, Express.js  
**Frontend:** HTML, CSS, React, Bootstrap  
**Clouds & Databases:** AWS, MongoDB  
**Developer Tools:** VS Code, GitHub, Eclipse IDE, Jupyter

## Internships and Projects

---

**DSA Using Java by Henotic Company | *Online Bus Reservation System Project*** **July 2023-Sept 2023**

- Emphasize the proficiency in Java development and deep understanding of DSA gained at Henotic Pvt Limited.
- Experienced in utilizing Eclipse IDE for software development, including coding, debugging, and version control.

**AICTE AI-ML Virtual Internship** **May 2023-July 2023**

*AWS Canvas Academy*

- I learned to leverage AWS services for machine learning, gaining practical experience in model development, deployment, and data visualization.
- This internship gave me hands-on training in AI and ML concepts within the AWS ecosystem.

**Weather Forecast Application** **Jan 2023-April-2023**

*ReactJS, CSS3, API*

- Developed a single-page weather forecast app enabling users to access weather details within 10 milliseconds.
- Implemented a 5-day forecast feature with average temperature, weather description, and unit toggling.

## Certifications

---

**Accenture Data Analytics and Visualization Job Simulation** **February 2024**

*Forage*

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture.
- Cleaned, modeled, and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions.

**J.P. Morgan Software Engineering Virtual Experience** **November 2023**

*Forage*

- Set up a local dev environment by downloading the necessary files, tools, and dependencies.
- Fixed broken files in the repository to make the web application output correctly.

**NPTEL Online Certification** **August 2023**

*Python For Data Science*

- Demonstrating proficiency in leveraging Python for data analysis, visualization, and machine learning tasks.
- Attained a commendable score of 60% in the NPTEL Python for Data Science examination

## Algorithmic Competitions

---

- Solved **50+** DSA problems from **Rapid Growth Problemset**, building problem solving skills.
